Powerscraper | suitable from d 355 mm up to d 1400 mm

Powerscraper

The STAR Powerscraper is not just a tool. It is a specifically created machine for scraping large diameter PE-HD pipes according to the requirements for electrofusion fittings and helps you to save time and effort on the job-site.

Thats how it works:

It is clamped onto the pipe wall and moves automatically around the pipe's circumference. Pipe ovality does not affect the depth of cut. It is further equipped with a connection for industrial vacuum cleaners.

The flexible construction enables a scraping length of up to 350 mm which is ideal for STAR and other electrofusion fittings d 355 mm up to d 1400 mm.

Technical Data

- Scraping width: 175 mm - 350 mm
- Scraping depth: 0.2 mm / 0.4 mm
- Scraping speed: 0.8 m/min
- Weight: 16 kg
- Power scraping motor: 1600 W
- Power Driving motor: 150 W
- Rating: 230 V / 50 Hz
